

AGRETO HFM II Hay- & Straw Moisture Meter

Applications:

- Professional measuring instrument for determining moisture and temperature of baled hay or straw
- For use in agriculture, hay- and straw trade, drying equipment...

Technical details:

- Robust construction, high quality materials
- 25/50/100/200/270 cm long stainless steel probe
- Ergonomically shaped wooden handle
- Moisture range 9 to 50 %
- Temperature range 0 to 100 °C
- 13 mm LCD display
- Automatic backlight
- Resolution 0.1 %, Accuracy 0.8 %
- Ongoing display of the readings during the measurement procedure for rapid moisture measurement at different locations within the bale
- Hold, average and counting function
- No calibration necessary
- Power supply with 9 V battery
- Scope of delivery: meter, battery, manual
- Latest technology „Made in Austria“

Benefits:

- Moisture control during harvest, purchase and sale
- Increases storage security of hay and straw
- Ensures food quality and prevents damage through fungal decay or rot
- Easy temperature check
- Robust instrument for daily use
- Ideal meter for trade of hay and straw
